Summary

Constantly seeking to engage my knowledge to learn something useful and keep challenging myself to be a better performer in accordance to the company's requirements. Good and quick learner, team player, love to learn new things, flexible with different technologies.

Education

Internshala Trainings   Aug.2024 – March 2025
Full Stack Development Course   *Online*

Krishna Engineering College   Nov. 2020 – July 2024
Bachelor of Technology in Information Technology   *Ghaziabad, Uttar Pradesh*

Certifications

HTML/CSS   JavaScript   Data Structure   React   Nodejs (Backend)

Technical Skills

Proficient Skills: Java, HTML/CSS, JavaScript, React.js, Nodejs, MongoDB, Express, Data Structures and Algorithms
Platforms and Tools: VS Code, Git, Linux, MySQL
Familiar: Tailwind CSS, C, Python, GitHub, Redux Toolkit, RESTful API, AWS

Projects

Video Streaming Platform / *React.js, Nodejs, MongoDB, Express, Cloudinary, JWT* / (Live Project)   **March 2025**

- Developed a highly performant and scalable video streaming application using **React**, **Nodejs**, **Express**, and **MongoDB**, resulting in improved user experience and loading speeds.
- Enhanced search functionality, ensuring responsive search results and minimizing unnecessary API requests.
- Utilized **caching** mechanisms to optimize application performance, reducing the load on the server and improving overall application responsiveness.
- Used **Json Web Token** and **bcrypt** for secure **authentication** of user and **Cookie Parser** middleware for handling cookies, showcasing proficiency in robust technology stacks.
- Introduced a real-time live comment feature, enabling users to engage in discussions and interactions while watching videos.

ShoppyGlobe E-commerce/ *React, Redux, Nodejs, Axios, Tailwind CSS* / (Live Project)   **Feb. 2025**

- Developed aesthetically pleasing user interfaces using **React components**, prioritizing a seamless and visually appealing experience for users.
- Engineered and implemented efficient **search and pagination** functionalities, coupled with **custom API data fetching hooks**, demonstrating prowess in optimizing data access and promoting code reusability.
- **Built a scalable RESTful API** with **Node.js and Express**, handling user authentication, product management, and order processing.
- Optimized the app for all devices through **responsive design**, providing a seamless user experience across different screen sizes and resolutions.

Online Library / *React.js, Tailwind CSS, Redux Toolkit* / (Live Project)   **Dec. 2024**

- Developed Online Library using **React** for intuitive interfaces and sleek **Tailwind CSS** designs, ensuring a seamless user experience.
- Optimized global state management with **Redux Toolkit** to efficiently handle book listings, and search functionality.
- Followed best coding practices, including modular component-based architecture, clean code, and reusable hooks for maintainability.
